Large format ceramic slabs offer several advantages and benefits that make them a popular choice in the construction and interior design industry. Some of the main advantages are:

Continuity and uniformity: Being large in size, large format ceramic slabs reduce the number of joints and provide a more uniform and continuous appearance on the surfaces, which creates an elegant and modern visual effect.

Less joints and easy cleaning: The reduction of joints also means fewer areas where dirt and dust accumulate, making it easier to clean and maintain.

Spacious feel: Large format ceramic tiles can make spaces feel larger and more open, especially when used on walls, as there are fewer sight lines dividing the space.

Design versatility: These boards offer greater design flexibility as they can be used in a variety of applications such as wall cladding, counter-tops, and facades.

Less waste: By covering more surface area with a single plate, there is less material waste during installation, which can be beneficial both economically and environmentally.

Greater strength and durability: Large-format ceramic slabs are often stronger and more durable than smaller pieces, making them suitable for covering public spaces.

Ease of installation: Although they require greater precision during installation due to their size, large format ceramic tiles can be easier to fit and level compared to a large number of smaller pieces.

In short, large format ceramic slabs offer a combination of aesthetics, functionality and efficiency, making them an attractive option for construction and design projects seeking a contemporary and practical appearance. However, it is important to keep in mind that its handling and installation may require specialized skills and tools, so it is advisable to have trained professionals for its placement.

INFINITA
120x278cm

characterised by a crystal-clear white background, it has elegant grey veins and fine golden details. this combination of elements gives this surface an extraordinary appearance, making it an ideal furnishing element to embellish the rooms in which it is used.

Natural elegance in
y●o●u●r spaces.

Black marble is a type of black marble with distinctive white veins that make it highly appreciated in the world of design and architecture.

Thanks to the contrast between the veins and the background, an imagery is generated that transports us to an electrical storm where the power of pure black with snow white does not go unnoticed.

This line of marine marble will transport you to a space of elegance, neatness and sophistication in every corner of your space.

The 120x270 cm size is ideal for covering large surfaces and highlighting eye-catching decorative details.

This new size offers the opportunity to play around with perspectives and visual continuity, amplifying and bringing balance to living spaces.

Creative solutions, from architecture to furnishing options, creating unique visual effects to bring a smooth **look to exterior spaces.**

An exquisite, gleaming, timeless ceramic material, suitable for classical or contemporary, residential or commercial locations, enabling infinite compositional ideas and combinations with other materials, which generate dynamic contrasts and sophisticated interplays of light. A collection with a thousand facets that profoundly explores the beauty of onyx.

Minimalism; Discover our collection of  **nyx** slab.

This exceptional surface is perfect for exploring a whole world of creative possibilities, while transmitting elegance, style and versatility, and helping to shape extraordinary settings.

Ideal both for covering and creating decorative furniture details, our monocolour ceramics will give you an atmosphere sophisticated and harmonious. explore and find the perfect shade to express your unique style in every corner of your home or project design.

The **color** green
taken to its purest
state.

Green whisks us off to the majesty
of the Apuan Alps, probably the
most stunning mountains in
Tuscany and universally famous for
the spectacular marble that has
been extracted from their quarries
since time immemorial.

Green marble-effect porcelain tiles. Green Embodies the fascination of a tropical forest. The background green is deep and vibrating; it is crested by light shades that reinforce the Decorative potential of the surface.

Coatings that challenge the senses.

Green mood resonates tranquil oasis vibes.

Transform your space with Green Mood marble, creating a serene oasis that rejuvenates your surroundings. This calming hue brings nature indoors, promoting a soothing atmosphere for ultimate relaxation.
